

The Renaissance[®]

Designed for efficiency, built to last.

The Renaissance® Design Advantage

■ The RENAISSANCE® Cart was designed using the latest sophisticated computer technology to identify stress points and simulate years of service. Wanzl is known for the quality and durability of its products. The Renaissance Cart® is now time tested as a proven winner for many retailers who now utilize a plastic shopping cart for their customers.

1 Interchangeable One-Piece Basket
Exclusively attached without the use of rivets, a common area of failure on other plastic cart designs.

2 High Visibility Basket
Provides cashiers with clear vision to all items in the basket, thus reducing theft.

3 Contemporary Contoured Basket
Design reduces the collection of moisture and dirt, reducing slip-and-fall potential, and provides the customer with a clean shopping cart.

4 Integrated Front Handle

5 Modular Design
Allows for easy maintenance.

6 Fixed Lower Grill
Eliminates chatter.

7 Three Logo Panels
Optional printing of I.D. or logo on the sides and front (dimensions are 8"x3.5" or 203x83 mm; one color printing only).

8 Heavy-Gauge Oval Tube Frame

9 Unique Steel Gate Design
Prevents the gate from dislodging from the basket.

10 Steel Components include a TECH-SEAL® Finish
Steel frame and components come standard in Granite TECH-SEAL® Finish (three-year written warranty against the spread of corrosion).

Quality_MADE BY WANZL

Everything on this cart is recyclable.

Features, Benefits, and Specs

Bread Basket Insert & Cup Holder

Optional attachments that increase the functionality of the cart.

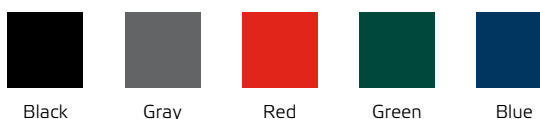

- Basket is molded of FDA-approved resin
- Colored baskets available to meet your store decor requirements (options below)
- 10 1/2" nesting distance offers a better utilization of front end space

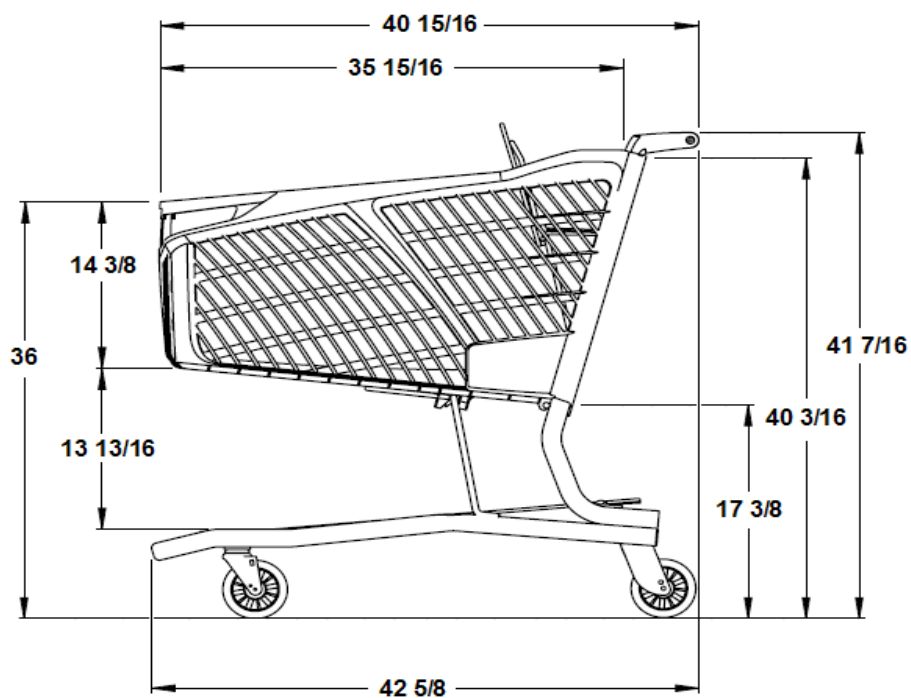

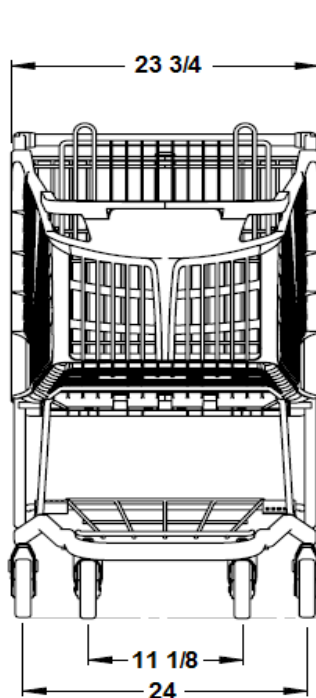

Rear Roller Lifter

Raises rear fixed casters when carts are nested and collected (this reduces wheel flat spotting).

Available Basket Colors

Custom colors available. Call for details.
